ACCEPTABLE USE POLICY - No. 819

The TWIN VALLEY SCHOOL DISTRICT (district) provides employees, students, School Board Members, and guests (users) with approved access to the district's technology resources to be used for educational purposes including but not limited to electronic communications systems, computers, computer networks, networked devices, hardware, software, internet access, copiers and cameras.

Any unauthorized third-party usage of the district's, computers, network, internet, electronic communications and information systems is prohibited.

The use of the district's technology resources shall be consistent with the curriculum adopted by the district and made available for the performance of job duties consistent with the educational mission of the district. Instructional needs, learning styles, abilities and developmental levels of students shall be taken into consideration. All use for any purpose must comply with this policy and all other applicable codes of conduct, policies, procedures, and rules and must not cause damage to the district's technology resources.

All employees and students are responsible for the appropriate and lawful use of the district's technology resources. This policy is intended to ensure that all users continue to enjoy access to the district's technology resources and that such resources are utilized in an appropriate manner and for purposes consistent with the curriculum adopted by the district.

Child Pornography - see Act 47 U.S.C. § 254; and Act 24 P.S. § 4601

District Technology Resources - All technology owned and/or operated by the district, including but not limited to computers, audio/visual systems, mobile devices, printing/copying devices, scanning devices, cameras and other media equipment, hardware, software, networking equipment/devices or network/resource accounts.

Educational Purpose - Use that is consistent with the curriculum adopted by the district as well as the varied instructional needs, learning styles, abilities and developmental levels of students.

User(s) - Anyone who utilizes or attempts to utilize district technology resources while on or off district property. The term includes, but is not limited to, students, staff, parents or guardians, and any guest(s) to the district that may be approved to use district technology.

The electronic information available to students and staff does not imply endorsement by the district of the content, nor does the district guarantee the accuracy of information received. The district makes no guarantee that the functions or services provided by or through the district internet, computers or network resources will be error-free or without defect.

The district shall not be responsible for any information that may be lost, damaged or unavailable when using the network or for any information that is retrieved via the Internet.

The district shall not be responsible for any unauthorized charges or fees.

The Board establishes that network use is a privilege, not a right; inappropriate, unauthorized and illegal use will result in cancellation of those privileges as well as appropriate disciplinary action.

While using district-owned devices, users must utilize the district's wired or wireless networks for access to the internet when operating in or attending district schools and facilities. Other means of access are not permitted (e.g. WIFI hotspots, personal internet access, open/rogue networks etc.)

The district will implement internet and network safety measures through policy, guidelines and technology to filter access by minors, protect users' safety and security, and against unauthorized access, disclosures or dissemination of users' information.

The Superintendent or designee shall develop procedures, in cooperation with the district technology staff, for the acceptable use of all district technology resources.

Use of Personal Electronic Devices - see SB Policy 237

Unauthorized Use Prohibited - Only users who have agreed to abide by the terms of this policy may utilize the district's technology resources. Unauthorized use, utilizing another user's district account, or exceeding one's authorization to use district technology resources is prohibited.

Privacy - The district reserves the right to monitor any user's utilization of district technology resources. Users have no expectation of privacy while using district technology resources whether on or off district property. The district may monitor, inspect, copy, and review any and all usage of district technology resources including information transmitted and received via the internet to ensure compliance with this and other district policies, and state and federal law. All emails and messages, as well as any files stored on district technology resources may be inspected at any time for any reason.

Filtering and CIPA Compliance - The district reserves the right to restrict access to any internet site or resource it deems inappropriate through established policy. As required by law, the district shall utilize content and messaging filters designed to prevent users from accessing materials deemed obscene, offensive, pornographic, harmful to minors or otherwise inconsistent with the district's educational mission. Such restrictions will apply to all district devices and users.

Monitoring - District technology resources shall be periodically monitored to ensure compliance with this and other district policies including monitoring of users' online activities. The network administrator designated by the Superintendent shall ensure that regular monitoring is completed pursuant to this section. The Superintendent or designee shall also implement procedures to ensure that district technology resources are not utilized to track the whereabouts or movements of individuals, and that remotely activated cameras and/or audio are not utilized.

District Provided Resources - District technology resources may be assigned or allocated to an individual user for his or her use (e.g. individual email accounts, laptop computers, mobile devices, etc.). Despite being allocated to a particular user, the technology resources remain the property of the district and may be revoked, suspended, or inspected at any time to ensure compliance with this and other district policies. Users do not have an expectation of privacy in any district provided technology resource or any of its contents.

Social Media and Networking - The district is not responsible for, nor does it endorse messages, narratives or rhetoric published by users whose content is inconsistent with the educational purpose of the district. In addition, users shall not publish or post information deemed confidential or non-public.

Incidental Personal Use - Occasional personal use by an individual must comply with this policy and all other policies, procedures, and rules, and may not interfere with the employee's duties or the educational purpose of the district.

The following uses of district technology resources are prohibited:

1. Use of technology resources to violate the law, facilitate illegal activity, or to encourage others to do so.
2. Use of technology resources to violate any other district policy.
3. Use of technology resources to engage in any intentional act which might threaten the health, safety, or welfare of any person or persons.
4. Use of technology resources to cause, or threaten to cause harm to others or damage to their property.

Violations of this policy may result in the temporary or permanent revocation of a user's right to access district technology resources. Additionally, users may be subject to other forms of disciplinary actions for violations of this policy and/or local, state, and federal law.

ATTENDANCE POLICY

The Board of Education requires that school aged pupils enrolled in the schools of this District attend school regularly in accordance with the laws of the Commonwealth. The educational program offered by this District is predicated upon the presence of the pupil, which is required for continuity of instruction and classroom participation. Excessive student absence is disruptive of the educational process and, therefore, harmful to our students and to our society. The regular contact of pupils with one another in the classroom and participation in a well-planned instructional activity under the tutelage of a competent teacher are vital to this purpose.

This policy is hereby adopted in coordination with the intended goal of this School District to eliminate unnecessary and excessive student absence. The policy shall apply to all students who are required by the laws of this Commonwealth, and the regulations of the Department of Education, to be in attendance as students enrolled in the Twin Valley School District.

Resident children shall be entitled to attend the District's public schools from the earliest admission age to the District's kindergarten school program until the age of 21 years. School attendance is compulsory from the time the parent or guardian places the student in school, which shall be no later than six (6) years of age until the student reaches eighteen (18) years of age, unless the student has graduated from school. No student shall be admitted to the District's schools who has attained a high school diploma or its equivalent unless such student is part of a foreign exchange program.

Full Attendance Required - Students are required by law to be in full attendance each school day unless absent for an approved reason, which is defined herein as an excused absence.

Any absence not approved shall be deemed to be an unexcused absence. The building principal(s) shall approve excused absences and determine when an absence is unexcused.

Excused Absences - The guidelines governing excused absences are established by the Department of Education and may be found in Chapter II of Title 22 of the Pennsylvania Code. The parents of a student are responsible to see that each child is in lawful school attendance. Therefore, any request that an absence be approved as an excused absence must be requested, in writing, from a parent. The following are the only reasons an absence will be excused:

- A. Observance of a student of a bonafide religious holiday in accordance with the student's religious beliefs. Religious instruction is restricted to a maximum of 36 hours per school year. Participation in such instruction shall be voluntary, shall be based upon the written permission of parents/guardians, shall be restricted to one (1) hour per week, and shall be supported by the provision to the District of a weekly attendance record by the sponsor of such religious instruction.
- B. To obtain health care from a licensed practitioner, on those occasions when it is not practical or possible for the student to receive such health care after school hours. Absence hereunder shall be limited to the minimum time necessary to receive the required health care.
- C. Illness or other urgent reasons. An absence hereunder shall be deemed excused upon receipt of satisfactory evidence of a student's illness, physical injury, or upon other urgent reasons. Non-attendance by a student shall be for a temporary period. The term "urgent reason" shall be strictly applied and shall not permit irregular attendance. Therefore, excused absence hereunder shall be limited to:
 1. Illness
 2. Physical Injury
 3. Death in the student's immediate family
 4. Other reasons properly deemed to be "urgent" by the building principal(s)
- D. Educational trips, not school sponsored. A student may be excused during a school year for up to five (5) days of absenteeism resulting from family or family financed trips which have educational aspects. The request to be excused for an educational trip must be approved in advance by the building principal. Approval will be contingent upon the student's academic progress, attendance record, and on the student's responsibility for keeping up with assignments during the trip. In the event that the request exceeds 5 school days, the parent will be required to submit a special request to the Superintendent or designee. No trip will be approved during the first or last five (5) days of a semester, or during published state standardized testing dates. The Superintendent or designee will determine whether or not any additional days will be approved.
- E. Absences from class for school sanctioned activities, including but not limited to, field trips, athletic events, and non-athletic events shall be exempt from the 30-day excused absences limit described in this policy.
- F. Tutorial Work. Upon parental request, a pupil may be excused during school hours for the purpose of receiving tutorial instruction in a field not offered in the District's curriculum but only under the following circumstances: the excuse does not interfere with the regular program of studies; the qualifications of the instructor are approved by the Superintendent; and any instruction or transportation costs associated with receiving tutorial instruction shall be the responsibility of the parent/guardian involved.
- G. With prior approval from the Superintendent or designee, a student may receive up to ten additional excused absences for the purpose of visiting with a parent, guardian, or family member who is an active duty member of the uniformed services and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting.

Unexcused Absence and Penalties - Every student absence from school, or from any class a student is required to attend, which is not approved as an excused absence shall be deemed to be an unexcused absence. The following penalties shall be imposed for unexcused absences:

- A. If a secondary student's unexcused absences from any class total more than eight (8) for a semester course or fifteen

(15) for a full year course on the last day of the semester course or full year course, the student shall not be granted credit toward graduation or promotion for any such semester course or yearly course.

- B. Discipline for attendance infractions will be in compliance with the requirements set forward by state law.
- C. The Board authorizes the building principal(s) to revoke driving privileges from any student who reaches five (5) days of unexcused absence in any given marking period during the school year. Regardless of the marking period in which driving privileges are revoked, the revocation may be effective from the date of revocation until the end of the school year.

Specific Unsatisfactory Excuses - In addition to the limitations previously set forth in this policy, students are specifically placed on notice that unsatisfactory excuses may include but not be limited to the following:

- A. Missing the bus
- B. Oversleeping
- C. Automobile Failure
- D. Cutting Class
- E. Failure of parent to arrange for child care

Excessive Excused Absence - There are many patterns of absence that defy credibility (ex: every Friday, every Monday, every other day). When, in the opinion of the building principal(s) and in accordance with the School Code, a student demonstrates a pattern of chronic absence, a medical excuse may be required.

Excessive Absences Whether Excused or Unexcused - If a student at the secondary level is absent from any class, excused or unexcused, more than fifteen (15) periods for a semester course or thirty (30) periods for a full year course on the last day of the semester or year, the student may not be granted credit toward graduation or promotion for any such semester course or year course for such course or courses. In any such event, the student shall not receive credit for each applicable course. Students at the elementary level who have more than fifteen (15) days of unexcused absence in any school year may not be granted promotion.

Graduating seniors who submit satisfactory documentation may be excused from school attendance for a maximum period of three (3) school days for the purpose of attending required interviews for college admission or for attendance at bona fide interviews for fulltime, postgraduate employment provided that such interviews cannot be scheduled outside of school hours. Juniors who submit satisfactory documentation may be excused from school attendance for a maximum of three (3) school days for college visitations.

Upon return from an absence from school, the student shall provide a written statement signed by the parent/guardian and including the date of and reasons for the absence. If the written statement is not provided within three (3) school days following the student's return to school, the absence will be considered to be an unexcused absence. Each teacher shall maintain an accurate daily record of absences and tardiness for all students in the teacher's classes. The building principal(s) will formulate definitions to distinguish among tardiness, half-day absenteeism, and whole-day absenteeism. Each principal will establish procedures for maintaining close communication with parents/guardians regarding student absenteeism. For students of compulsory school attendance age unexcused absences are illegal; and the District will implement the resulting actions as specified by State legislation.

Make-Up Work - Students are provided an opportunity to complete assignments missed because of absences. Arrangements for makeup work are the primary responsibility of the student and/or the student's parents. Extended time may be granted in cases where extra time is needed. Time and work may be made up after school, at home, or during school hours. Students who cut class or whose absence is illegal or unexcused may not make up any work missed on the dates of illegal or unexcused absences.

Notification of Parents - The school will attempt to notify parents of continued absences from school and classes. Attempts will be made to have parents verify receipt of probationary letters and review letters by having them sent through certified mail. Personal requests for notification on a more frequent basis will be handled through procedure(s) developed by the building principal(s).

Unlawful Absences - The district will follow the guidelines in state law in regards to unlawful absences and truancy.

Exceptions To Student Penalties Imposed Under This Policy - Exceptions to the penalties established by this policy may be

granted at the discretion of the principal(s) when, under the individual circumstances involved, it is reasonable and prudent to do so.

Appeals/Reviews - If a student exceeds the maximum days of absence as outlined in this policy with no provision for substantial justification for the absence, the student will have the right to:

1. Petition his/her case to be reviewed by the building level administration.
2. Have the case reviewed by the Superintendent or designee.

Petitions will be accepted only in cases where the petition is for relief from academic sanctions. Petitions will not be accepted for any disciplinary actions or revocation of driving privileges resulting from violations of this attendance policy.

DAILY ATTENDANCE PROCEDURES

Student Obligation Upon Reporting to School

Parents are asked to call the high school office, 610-286-8600 x7554, between 7:30 am and 9:00 am when a student will be absent or tardy. This call will be listed as a TEMPORARY EXCUSE ONLY. It must be FOLLOWED WITHIN THREE DAYS BY A WRITTEN EXCUSE.

Tardiness

A student must report to his or her first period class *before* the 7:47 a.m. bell rings. Students arriving tardy to school after 7:47 a.m. must sign in at the late arrival desk or in the office before reporting to class. Any student who fails to do so will be given consequences for failure to follow attendance procedures. A student arriving after 9:38 a.m. will be marked absent for a half day. A student arriving after 1:00 p.m. for full-time students will be recorded as a full day absence. Morning Vocational Technical students arriving after 11:44 a.m. are tardy. Additionally, if a morning Vocational Technical student arrives after 1:00 p.m. that student will be marked absent for a half day.

Note: All tardies to school are considered unexcused unless a written note from the parent/guardian is received no more than one day after the tardy to school. Valid excuses for excused absences are listed previously in the handbook.

Excuse Cards for Full-day or Half-day Absences

Written excuses/excuse cards should be turned in as stated above, and include the date(s) absent and specific reason for the full-day or half-day absence. "Personal Reasons" is NOT an acceptable legal excuse. Please note acceptable reasons in the attendance policy as stated previously in this handbook. Doctor excuses are required when such visits are necessary, especially if school time is missed for an appointment. The school realizes the difficulty in scheduling doctor appointments, however, we request parents attempt scheduling appointments outside of the school day. Only extreme cases would call for an entire day of school to be missed for an appointment. Excuse cards for absences must be received by the school within three (3) days after the student's return or the absence will be classified as unlawful or unexcused. Three days or equivalent of unlawful absence constitutes a first offense toward truancy and the parents or guardians will be notified by the high school principal by registered mail. Any additional unlawful absence constitutes a second offense causing the parents, guardian and/or the student to be issued a summons for a fine, imprisonment, or other penalties as applied by a district justice. In cases of unexcused or unlawful absences, credit for work or tests missed will be withheld and school consequences will be assigned as outlined in the discipline policy.

Early Dismissal

Requests for early dismissal from school must be presented in writing in the school office no later than the morning of the date early dismissal is requested. Phone calls and emails for early dismissal permission will not be accepted. A pass will be issued and the student will sign out in the office before leaving the school grounds. All students leaving early must personally sign out in the high school office. For excused dismissals, students are responsible for completing any missed class work. Students must submit a note from the doctor/dentist/office visited upon return to school in order for the time out to be considered excused. Any student signing out of school without permission will be subject to the discipline code and may result in the loss of make-up work privileges.

Trips and Vacations

Vacations for students during the regular school year are discouraged. Educational trips arranged for any days that may include the first or final weeks of each semester, or state and local assessment periods will not be approved. Parents should check with the school for assessment dates before planning any trips. Parents who wish their student to accompany them on an educational trip are required to submit a trip request form at least a week in advance on the actual trip dates. Forms may

be picked up in the school office or can be downloaded from the school website (www.tvsd.org). The student is responsible to request all assignments from teachers before leaving and present all assignments completed on the day of return.

Make-Up Work After Absences

1. Any student absent from class for legal reasons, including suspension, is required to make up all work missed.
2. It is the responsibility of the student to initiate make-up activities with his/her teachers to obtain the work and help, if needed, to make up the work.
3. A student absent from school shall be required to make up assignments and examinations within a two-week period from the date of the absence. Individual teachers will review classroom procedures for specific situations at the beginning of the school term.
4. Any assignment or examination not made up will be recorded as a failure and be averaged with the grades earned to determine the quarterly mark.
5. Excuse from Physical Education Class Procedure
 - a. Students who are excused from physical education class for medical reasons should submit a medical doctor's excuse to the school nurse indicating reason for excusal and estimated length of time.
 - b. Students will be provided with an alternative assignment that they must work on.
 - c. The physical education instructors will not issue passes to the nurse unless the student is ill or is injured during class.
 - d. Long-term medical excuses will be considered on an individual basis. In such cases, an alternative assignment will be given.
6. It is urged that any student who knows that he/she will be absent from class see the teacher(s) in advance about schoolwork to be missed.

Note: Students cutting class, leaving school without permission, or absent without a valid excuse may not be permitted to make up class work, projects, labs, or examinations missed during these absences.

DISCIPLINE CODE

The educational progress of a student is dependent upon individual self-discipline. The most positive influence a student will have on a class is the accountability for his/her own conduct. The Twin Valley High School staff believes discipline should be firm, fair, and restorative in nature. Students should keep in mind they do not have the right to interfere with the education of other students in the school. Behavior that disrupts the classroom community, or risks the safety and welfare of others, will be handled in a most serious manner. One of our primary functions is to provide a safe and positive learning environment for all students and staff.

SUMMARY OF BOARD POLICY

A complete copy of these policies is available through the Twin Valley School District Website at <http://www.tvsd.org>

Anti-Bullying

The Twin Valley School District recognizes that bullying of students has a negative effect on the educational environment of its schools. Students who are bullied, intimidated, or fearful of other students may not be able to take full advantage of the educational opportunities offered by the school district. Bullying shall mean unwelcome verbal, written, or physical conduct directed at a student by another student(s) that has the intent and effect of:

- Physically harming a student.
- Damaging, extorting, or taking a student's personal property.
- Placing a student in reasonable fear of physical harm.
- Placing a student in emotional unrest by spreading rumors, manipulating social relationships or environment, engaging in social exclusion, extortion, intimidation, and ridicule.
- Cyber-bullying: forms of verbal and psychological bullying may also occur on the Internet through e-mail, instant messenger, or other social media.
- Creating an intimidating or hostile environment that substantially interferes with a student's educational opportunities.
- Creating verbal statements or written remarks that are taunting, malicious, threatening, or sexual.

The school district will not tolerate known acts of bullying occurring on school district property, at school-sponsored activities scheduled on or off school grounds or during the time students necessarily spend traveling to and from school or school-sponsored activities, including bus stops and routes of travel to and from the bus stops or to school property or school-sponsored events.

Canine Search

Should circumstances exist justifying a general search, school officials may use trained dogs to search inanimate objects on school premises, including student lockers, cars, bags, coats, purses and other such belongings for drugs or other illegal contraband. It shall be the policy of the district to permit the administration to periodically invite law enforcement agencies to search school property with dogs trained for the purpose of finding illegal substances and materials in accordance with the following guidelines:

1. The administration shall authorize the search and have a member of the administrative staff on hand while the search is taking place.
2. Prior to implementation, and at least annually thereafter, notice of this policy shall be given to parents, students and staff through a variety of notices, i.e., mailings to homes of students, public announcement and school publications.
3. All school property such as lockers, desks, classrooms, storage areas, parking lots, athletic fields and facilities may be searched at any time.
4. All vehicles parked on school property may be searched.
5. Individuals shall not be subjected to a personal body search by dogs. However, an indication by the dog that contraband is present on the individual, school property or a vehicle shall be reasonable cause for further search by school officials.
6. Once notification has been given to parents, students and staff, the district will have met its obligation to advertise any searches. Actual times and dates of planned searches will not be released in advance.
7. The law enforcement agency and district administration are given full authorization to investigate and prosecute any person found to be responsible for illegal substances and material on school property at any time.

It shall be the responsibility of the Superintendent or designee to follow and implement the provisions of this policy. Following the use of a search dog, the Board shall be officially notified by the Superintendent or designee.

Controlled Substances: Use or Possession

The Twin Valley School District has a zero tolerance controlled substance policy. Any student caught using, in possession of, storing, distributing or being under the influence of any controlled substance in school, on school property or school buses, or at school sponsored events will be immediately assigned discipline. For the purposes of Board Policy #227, "controlled" substance shall mean:

- All dangerous controlled substances prohibited by law;
- All "look alike" drugs;
- All alcoholic beverages;
- Anabolic steroids;
- All drug paraphernalia;
- Any volatile solvents or inhalants such as, but not limited to, glue and aerosol products; any pill, prescription, patent drug, or supplement except those for which permission to use in school has been granted pursuant to district procedures.
- Synthetic Drugs

Special Note: The Board reserves the right to use any other lawful measures deemed necessary to control and eliminate the use of drugs, alcohol, and other mood-altering substances even if the same is not provided for specifically in any rule or regulation enumerated herein. The administration may require substance abuse testing, compliance with any prescribed counseling or rehabilitation program prior to the student readmission, and a referral to the Student Assistance Team.

Electronic Devices

The TWIN VALLEY SCHOOL DISTRICT (district) School Board recognizes that electronic devices are an integral part of the daily lives and culture of the district's students and personnel (users). Specific guidelines for acceptable use shall be administered at the elementary, middle and high school levels.

Electronic device - any personal or portable device designed for mobile communication, recording or transmitting audio/visual content, interacting with or accessing media, or providing a connection to the internet or other audio/visual resources.

Electronic devices are permitted in all district-owned buildings, on school grounds, in school vehicles, and/or while participating in school-sponsored activities on or off school premises unless prohibited by district administrators.

Building administrators or designee shall have the right to regulate use of electronic devices.

The Superintendent or designee shall develop procedures, in cooperation with the district technology staff, for the acceptable use of electronic devices.

Network access

The district reserves the right to provide a segregated network that would allow users to connect a personal electronic device using district access resources.

Loss or damage

Users are solely responsible for the safe storage of any personal electronic devices that they may choose to bring to any district building or premises. The district shall not be responsible for the loss of or damage to any electronic device owned by a user.

The School Board prohibits all students from any use of electronic devices in locker rooms, bathrooms or other changing areas.

The School Board prohibits students from using any electronic device to take photographs or to record audio or video of any person or group, without the knowledge or consent of that person or group, while on district property or while a student is engaged in school-sponsored activities, unless expressly authorized in advance by the building principal or designee, except when used to record participants in school-sponsored public events such as athletic events, shows, concerts, etc.

Harassment Policy

It is the policy of the Twin Valley School District to provide a working and learning environment free from all forms of illegal discrimination, including unlawful, ethnic, or sexual harassment.

It shall be a violation of this policy for any member of the staff to harass a student through conduct or communications of an unlawful nature as defined below. It shall also be a violation of this policy for students to harass other students through conduct or communications of an unlawful nature as defined below.

Unlawful harassment including but not limited to ethnic and sexual harassment lowers morale and is damaging to the educational environment; it also is illegal pursuant to Titles VI, VII and IX of the Civil Rights Act of 1964 and the Pennsylvania Human Relations Act. Therefore, the District will treat unlawful harassment like any other form of employee or student misconduct, and it will not be tolerated. For purposes of student speech, it is regulated here only insofar as it substantially disrupts or interferes with the work of the school or the rights of other students, is lewd, vulgar or profane, or is school-sponsored, i.e., speech that a reasonable observer would view as the school's own speech.

Examples of unlawful harassment include, but are not limited to, repeated, unwelcome and offensive slurs, jokes, or other verbal, graphic, or physical conduct (such as touching, rubbing, grabbing, pushing, hitting or punching) relating to an individual's race, color, ancestry, religion, sex, national origin, age, or handicap/disability.

Ethnic harassment includes the repeated, unwelcome, and offensive use of any derogatory word, phrase, or action characterizing a given racial or ethnic group that creates an intimidating, hostile or offensive educational or employment environment.

Sexual harassment is illegal and it is against the policies of this district for any employee or student, male or female, to sexually harass another employee or student by:

- 1) making acceptance of unwelcome sexual advances or requests for sexual favors or other verbal or physical conduct of a sexual nature, a condition of an employee's continued employment or the student's education;
- 2) making submission to or rejections of such conduct the basis for academic or employment decisions affecting the individual;
- 3) creating an intimidating, hostile or offensive educational, social or working environment by such conduct which causes actual disruption to the student or employee.

Sexual harassment, as defined by the board policy, may include, but is not limited to the following: pressure for sexual activity; repeated sexual remarks with demeaning implications to a person; unwelcome touching (e.g. pinching or patting); unwelcome flirtations, including those of sexual nature; graphic verbal commentaries or innuendoes about a person's body; displaying sexually suggestive objects or pictures; using particular action or obscene remarks or gestures; suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning one's grades, job or position.

The district will act positively to investigate alleged unlawful, ethnic, or sexual harassment claims and to effectively remedy them when an allegation is determined to be valid.

The district will enforce disciplinary action against any person who threatens or insinuates, either explicitly or implicitly, that an employee's refusal to submit to sexual advances will adversely affect the employee's employment, evaluation, wages, advancement, assigned duties, shifts, or any condition of employment or career development. This discipline can include termination.

A substantiated charge against a student in the school district shall subject that student-to-student disciplinary action including suspension or expulsion, consistent with the student discipline code.

Given the nature of the type of discrimination, the district also recognizes that false accusations of unlawful, ethnic, or sexual harassment can have serious effects on innocent men, women and students. Therefore, false accusations will be considered for disciplinary action.

All employees and students must recognize that sensitivities differ. It is the desire of Twin Valley School District to have as many complaints as possible resolved informally between the parties. The primary purpose is to resolve the complaint at the earliest possible time. The purpose of the initial conflict resolution is intended to be corrective rather than punitive and shall

be accomplished through education. This policy will only deal with that conduct which is severe or pervasive enough to create an objectionable hostile or abusive environment to a reasonable person and which actually does adversely affect the victim.

The right to confidentiality, both of the complainant and of the accused, will be respected consistent with the district's legal obligations, and with the necessity to investigate allegations of misconduct and to take corrective action when this conduct has occurred.

Step 1 - Informal meeting

1. An employee or student who believes she/he has been unlawfully, ethnically, or sexually harassed shall attempt to stop the unwanted attention by informing the offending party that his/her actions or attentions are offensive and firmly asking that the actions or attentions cease. The employee or student may want another adult or student present when the offending person is confronted. If this request does not stop the harassment, or if the offended person prefers not to approach the offender, corrective action may be pursued as follows:
2. A student believes she/he has been subjected to unlawful, ethnic or sexual harassment shall report the incident to any adult in the school with whom the student feels comfortable: e.g., teacher, school nurse, or principal. During this reporting process a student may request that another adult or student be present. The student and the adult shall then report the incident to a guidance counselor or administrator. It is the responsibility of both the accused and the accuser to maintain confidentiality about the identity of the parties and the specifics of the allegations, except as it is revealed to those persons who are responsible for conducting an investigation and participating in any disciplinary action. Parents or guardians will be notified if it is determined that the health, welfare, or safety of the student is in jeopardy. The student shall be informed that his/her parents or guardians are going to be notified.
3. Any person who alleges unlawful, ethnic, or sexual harassment by any employee or approved volunteer in the district should report such action directly to his/her immediate supervisor, building principal, or other individual who could receive such a complaint.

After an initial interview with the appropriate administrator, it may be possible to resolve the problem through oral or written communication with the person whose actions are the subject of the complaint. If the informal inquiry is conducted by an administrator other than the Title IX officer and the results do not resolve the matter, it must then be mediated by the Title IX officer in the final effort to achieve an informal resolution to the problem.

Step 2 - Formal hearing

1. If the complaint is not resolved to the satisfaction of either party at Step 1, the complainant and/or the accused will submit a detailed written statement of account to the President of the Board. Within ten (10) working days of the complainant's request to appeal the complaint the President of the Board shall submit to the governing board or its designated representative(s) a copy of the written complaint and notification of the hearing. The hearing shall be scheduled for a date not to exceed twenty (20) working days after the appeal/referral of the complaint for a formal hearing. At the conclusion of the hearing both parties shall receive within ten (10) working days written notice of the decision rendered.
2. Should the hearing be resolved in favor of the accused no further action will be taken. The charges and the resolution may be placed in the accused and the accuser's personnel files if the accused so requests; otherwise, the charges and the transcript will be sealed and impounded. Release from impounding may be made only upon direction of the Title IX Officer or a court order.
3. A substantiated charge against a student in the school district shall subject the student to student disciplinary action including suspension or expulsion consistent with the student disciplinary code. Unlawful, ethnic, or sexual harassment could also constitute a violation of the criminal code. The district will cooperate fully with representatives of appropriate police organizations to ensure the strongest possible institutional climate to prevent sexual harassment.
4. If it is substantiated that the accuser has made a false accusation, it will result in disciplinary action against the accuser.
5. In the event that the School District has already initiated discipline against the accused which seeks the expulsion of a student, the disciplinary procedures and the rights of the accused available there under shall supersede the procedures.

First Offense: All parties involved receive official warnings to cease and desist the harassing behavior. Serious first offenses may require additional consequences.

Further Offenses: Further reports of harassment will result in any one or a combination of the following: Suspension,

expulsion, disorderly conduct citation and/or police involvement. Additional Sexual harassment offenses will be referred to the school district's Title IX Officer and/or the Caernarvon Police Department.

Hazing Policy

Hazing is any action that endangers the health or safety of a student or destroys/removes public or private property for the purpose of initiating or admitting a student into any organization of the school district. A student found to be in violation of this policy shall be subject to disciplinary measures set forth by the discretion of the building administrator, which may include suspension, and/or permanent exclusion from athletic teams, athletic events, extra-curricular and co-curricular activities and events, in accordance with due process.

High School Athletics

Participation in all athletic/co-curricular/extra-curricular activities is a privilege. Eligibility requirements shall apply uniformly to all athletic/co-curricular/extra-curricular activities. Any student failing one or more courses as of 11:00 am on a Friday is ineligible to participate in athletic/co-curricular/extra-curricular activities for a period of one week beginning from the immediately following Sunday through the next Saturday. Any student with incomplete course requirements or failing one or more courses at the end of a grade period is ineligible to participate in any athletic/co-curricular/extra-curricular activities for a period of 15 school days beginning with the first day of the next grading period. During the period of time a student is ineligible, the student shall not participate in any athletic/co-curricular/extra-curricular activities, in any way. The student may not practice or play in any game, performance, or activity that is of an athletic/co-curricular/extra-curricular nature. Additionally, students must be present in school by 11:00 a.m. in order to be eligible for that day. If students have an early dismissal, they must present a note to the school/coach upon their return in order to remain eligible that day.

It is the finding of the Twin Valley School District that athletic opportunities for members of the male sex have not been previously limited. Furthermore, the School District finds that the physical size, speed, and power of male athletes would create a hazard to the health and safety of female participants. Based on the foregoing, the Twin Valley School District prohibits male participation on female athletic teams. Members of the female sex may not participate in games or practices on male athletic teams where there is either a separate female team in the particular sport, or the sport involved is a contact sport, e.g. wrestling, football, etc.

Each school year, prior to participation in an athletic activity, every student athlete and his/her parent/guardian shall sign and return the acknowledgement of receipt and review of Concussion and Traumatic Brain Injury Information Sheet. A student who, as determined by a game official, coach from the student's team, certified athletic trainer, licensed physician, licensed physical therapist, or other officially designated by the district, exhibits signs or symptoms of a concussion or traumatic brain injury while participating in an athletic activity shall be removed by the coach from participation at that time. The coach shall not return a student to participation until the student is evaluated and cleared for return to participation in writing by an appropriate medical professional. The School Board may designate a specific appropriate medical professional(s) to provide written clearance for return to participation.

Students must follow the Pay-to-Play procedures to participate in athletics and extra-curricular activities.

Personal Property

The Board will not be responsible for the personal property of students or other persons using the school facilities.

Student Expression

The Board respects the right of students to express themselves in word or symbol and to distribute and post materials in areas designated for posting as a part of that expression. The Board also recognizes that exercise of that right must be limited by the district's responsibility to maintain an orderly school environment and to protect the rights of all members of the school community. The Board requires that students who wish to distribute or post non-school materials on school property shall submit them two weeks in advance of planned distribution or posting to the building principal or designee, who shall forward a copy to the Superintendent. If the non-school materials contain unprotected expression as stated in this policy, the building principal or designee shall notify the students that they may not post or distribute the materials because the materials constitute a violation of Board policy. Refer to Board Policy 220 for more information.

Student Search

The principal or his/her designee who has a reasonable suspicion that illicit material or any material which poses a hazard to the safety and good order of the school, or violates school policy may conduct searches according to the guidelines in District Policy which include: school property (locker, storage cabinets, class desks), student possessions (pocketbooks, book bags, garments, automobiles) and personal searches. Searches may include the use of a handheld metal detector.

Tobacco Products and Electronic Cigarettes on School Property: Use or Possession

Twin Valley School District prohibits the possession or use of tobacco, vapor products, and their delivery devices by students in its school buildings, stadiums, bleachers and on any property that is owned, leased, or controlled by the school district. This prohibition extends to all buses, vans, and other vehicles owned by, leased by, or under the control of the school district. Violations will result in fines and consequences as outlined in the discipline policy.

Terroristic Threats and Acts

Students who engage in threats to commit any crime of violence communicated by any means resulting in the terrorizing of others, or communicated with reckless disregard for the risk of terrorizing others; or any threat to commit any threat of violence causing evacuation of a building; or causing serious public inconvenience, with reckless disregard of the risk of causing such terror or inconvenience may be immediately suspended, referred to the police for criminal action, and may be recommended for expulsion. Additional restrictions may be imposed and the student may thereafter be subjected to random searches.

Volunteer and Chaperone Clearances

Volunteer and Chaperone Clearances-Any volunteers or chaperones will need to follow the guidelines for clearances set forth in Board Policy 916 available on the district website (www.tvsd.org).

Weapons

Possession of a weapon on school grounds, in school buildings or on school transportation is a crime in Pennsylvania. Board Policy defines “weapons” to include, but not limited to, any knife, cutting instrument, cutting tool, nunchaku, firearm, shotgun, rifle, and any other tool, instrument, or implement capable of inflicting serious bodily injury. This definition may be expanded to include an object that has the appearance or characteristics of a weapon, such as toy guns, water pistols, etc.

Possession of a weapon at a school-sponsored activity also presents serious legal, safety, and welfare problems to the school community. Possession includes, but is not limited to, on the person, or under the person’s control, including his or her purse, book bag, carryall etc., locker, or vehicle. Therefore, the Twin Valley School District emphasizes that possessing a weapon, or knowing and not properly reporting the possession of a weapon in the buildings of, on the grounds of, at school- sponsored activities, or in any conveyance providing transportation to or from any elementary or secondary educational institution of the Twin Valley School District is a serious violation of the rules and regulations of the school district.

The Board also declares it to be the policy of this district to comply with federal law and regulations under Title IX prohibiting sexual harassment, which is a form of unlawful discrimination on the basis of sex. Such discrimination shall be referred to throughout this policy as Title IX sexual harassment. Inquiries regarding the application of Title IX to the district may be referred to the Title IX Coordinator, to the Assistant Secretary for Civil Rights of the U.S. Department of Education, or both. The district is committed to the maintenance of a safe, positive learning environment for all students that is free from discrimination by providing all students course offerings, counseling, assistance, services, employment, athletics and extracurricular activities without any form of discrimination, including Title IX sexual harassment. Students assigned to In-School Suspension for disciplinary infractions are subject to the following rules:

Initial notification should be accomplished within 24 hours by phone with a Parent/Guardian/Student/Assistant Principal and/or Principal Conference to occur during the suspension period prior to re-admittance to school.

Students who engage in disorderly conduct by fighting with or threatening others, engaging in violent or tumultuous behavior, making unreasonable or offensive noise, using obscene language or gestures, or creating hazardous or physically offensive conditions by actions which serve no legitimate purpose, may be issued a disorderly conduct citation by the school administration. Expulsions/School Board Hearings

Any student who is involved in a series of disruptive activities or who continues to violate school rules to the point of being disruptive to the program may be scheduled for a school board hearing. At this hearing, the school board will rule on the necessity of excluding this student from school for a period to exceed the ten-day maximum imposed by the school administration. Before reaching the hearing stage, student and parents will be counseled by school personnel and have a meeting with the superintendent or designee.

Under certain circumstances that include admission of disciplinary violation, a student and their parents/guardians may be

offered the option to enter into an agreement that includes a waiver of the formal and due process hearings.

HEALTH SERVICES

Good health care is essential to student success. If a student becomes ill in school, he/she should report to the nurse. Students will not leave the building because of illness without authorization. When the nurse is not in, students will report to the office. A pass will be obtained from a teacher before going to the nurse. The school health services are designed to include a variety of functions that will assist in maintaining good health.

1. Health, dental, and immunization records are maintained on every student by the school nurse.
2. Vision screenings are performed on all students.
3. Height and weight measurement and Body Mass Index (BMI) are calculated on all students.
4. Hearing screenings are performed in grades K - 3, 7, and 11.
5. Scoliosis screenings are performed in grades 6 and 7.
6. Students are required to have a physical examination by either their family doctor or school doctor upon original entry to school (Kindergarten or first grade), grade 6, and grade 11.
7. Students are required to have a dental examination by either their family dentist or school dentist upon original entry to school (Kindergarten or first grade), grade 3, and grade 7.

When the screening results are not within normal, according to the Pennsylvania Department of Health State Standards parents will be notified for follow-up care. The follow-up notice will be returned to the school nurse when it is completed by the doctor or dentist. Any medical problem concerning the student should be addressed to the school nurse. Medication to be taken by the student in school must be kept in the Health Suite with prescription attached. The medication is taken in the presence of the nurse.

Elevator Keys/Crutches/Temporary wheelchair use

The school will not supply crutches and/or wheelchairs. For the safety of students in need of crutches and/or a wheelchair for temporary use, a doctor's note stating the length of time the student will be utilizing such device is to be given to the school nurse.

For the use of the elevator and/or lift, a doctor's order will also be required. The key is to be returned to the nurse at the end of each school day. Elementary students will be accompanied by an adult for use of the elevator. If the elevator/lift key is lost, the student will assume the obligation to replace the cost of the lost key.

Emergency Cards

In order to remain current with the student's health, emergency cards must be filled out or completed electronically for each student, kept current, and submitted at the beginning of the school year for use in emergency situations. An emergency telephone number other than the place of residence is requested in case the student becomes ill or injured at school when the parent cannot be contacted. E-mail addresses are also helpful. Parents should be prepared, if necessary, to transport the student from school.

Illness or Injury During School Hours

Students are not to be sent to school ill and/or injured for diagnosis by the school nurse. If the student is injured or becomes ill during school, first aid will be administered. School personnel will not give care beyond first aid in the case of an accident or sudden illness. Final provisions for the care of children who are ill or injured are the responsibility of the parent/guardian. Parents/guardians are expected to report to the school to pick up their child when, in the opinion of the school nurse, the student is physically unable to continue with class. In case of emergency, the procedures as listed on the child's emergency procedure card will be followed and emergency medical services and/or a physician will be contacted.

Daily Procedures to Nurse's Office

1. A pass will be obtained from a teacher before going to the nurse.
2. A pass signed by the nurse must be presented to the teacher upon the student's return to class. No student is allowed to leave the health suite without the nurse's permission.
3. When there is a need for a student to be sent home due to illness or injury, the nurse will make the necessary arrangements with the parent/guardian. Parents/Guardians are responsible for the transportation of ill or injured students.
4. Students who are ill or injured are not permitted to make his/her own arrangements to leave school or they may be referred to building administrators.
5. Students should not be sent to school ill or injured to be diagnosed by the school nurse.

6. Students with infections such as conjunctivitis (pink eye) and impetigo are excluded from school according to school policy.
7. Students with illnesses, allergies, operations, accidents, pregnancy, hospitalizations or other health conditions occurring during the school year should report to the school nurse, so that an accurate health record can be maintained for your child.

The school cannot assume responsibility for injuries that did not occur at school. Parents/Guardians should not ask school personnel to treat such injuries.

Video Monitoring

The Board recognizes that serious misconduct on board a bus jeopardizes the safety of all passengers and that the limited use of video monitoring will help ensure safety by serving as a deterrent to serious misbehavior. The responsibility for maintaining reasonable discipline on board the district's school busses begins with the individual driver. Bus Incident reports will continue to be the primary tool for use by the driver to report misconduct which he/she observes that cannot be corrected by less formal means, such as reassigning seats or giving verbal warnings. These reports are forwarded to the responsible building principal for corrective disciplinary action as per existing district guidelines or procedures. If patterns develop or violations occur, the principal and/or bus driver may request the use of video-audio monitoring. The District Operations Director will review and approve or disapprove the request. Upon approval, the video-audio monitoring device will be installed. The device will be installed on an as-needed basis. A warning (via a posted decal) informs riders that a video-audio monitoring system may be used at any time. Disks will be erased and re-recorded if no incidents occur.

Reviews of video-audio disks will be limited to the Principal, District Operations Director, the Superintendent's Designee and the Superintendent. During an expulsion hearing school directors have a right to view a video-audio if the video disk provides evidence in the case. Video-audio recorded documentation of misbehavior will be preserved only until the disciplinary action/disposition is reached. Thereafter, all recorded evidence of the misbehavior will be erased and/or recorded over.

The district shall comply with the provisions of federal and state law and regulations regarding student record requirements as applicable to the district's use and disclosure of recordings. Recordings considered part of a student's educational record

shall be maintained in accordance with established student record procedures governing access, review and disclosure of student records. Accordingly, a parent/guardian will be permitted to view a tape only if no other student is identified. A request for viewing a video-audio disk may be made by a student's parents or guardians if the student has been videotaped and disciplinary action has been recommended. All requests should be in writing addressed to the principal of the student's school.

Driving and Parking Regulations

Sophomore, Junior or Senior students in good academic standing who wish to drive to school must apply and be granted a parking permit from the high school office. Students must register their vehicle by make, model, color, and license plate number. Upon arrival to school, students are to leave their cars and enter the building. Loitering in the parking lot may result in losing driving privileges. The driver is responsible for the car, its contents, and its occupants.

Note: All motor vehicles parked on school property are subject to search by administration at any time. There is no reasonable expectation of privacy regarding vehicles while parked on school property.

1. All students driving vehicles on school property must comply with the 10 MPH school speed limit. Students may not drive recklessly, the wrong way, or interfere with the arrival or departure of buses.
